RESEARCH INTERESTS

Visual world models; self-supervised visual learning; 3D vision; vision-language-action models; diagnostic evaluation.

EDUCATION

4/2025 – 3/2027 (expected) **M.Eng. in Computer Science** — **University of Tsukuba, Japan**
Advisor: Prof. Yutaka Satoh. GPA: **4.27/4.30**.
Thesis (working title): *The Aftertaste of Progress: Rethinking Learning and Evaluation in Computer Vision.*

4/2021 – 3/2025 **B.Eng. in Applied Mechanics and Aerospace Engineering** — **Waseda University, Japan**
Advisor: Prof. Kiyoshi Saito. Minor in Computer Science.
Thesis (translated title): *Enhancing an Emulator-Based Load Testing System with Machine Learning.*

SELECTED PUBLICATIONS AND MANUSCRIPTS

1. **Kohsuke Ide**, Ryousuke Yamada, Yue Qiu, Yoshihiro Fukuhara, Hirokatsu Kataoka, Yuki M. Asano, and Yutaka Satoh.
Beyond Downstream Scores: Controlled Diagnostics for Point-Cloud Self-Supervised Learning Evaluation.
Conference on Neural Information Processing Systems (**NeurIPS**), 2026 (Evaluations and Datasets Track).
Spotlight (top 1.28%; 48 oral/spotlight papers out of 3,757 submissions).

2. **Kohsuke Ide**, Ryousuke Yamada, Yue Qiu, Xianzheng Ma, Yoshihiro Fukuhara, Hirokatsu Kataoka, and Yutaka Satoh.
Beyond Single Object: Learning 3D Relations with Large Language Models.
IEEE/CVF Conference on Computer Vision and Pattern Recognition Findings (**CVPR Findings**), 2026.
project | paper | code

3. **Kohsuke Ide**, Ryousuke Yamada, Yoshihiro Fukuhara, Hirokatsu Kataoka, and Yutaka Satoh.
Seeing Red, Thinking Bad: Color Bias in Vision Language Models.
International Conference on Pattern Recognition (**ICPR**), 2026.
project | paper | code

4. **Kohsuke Ide**.
Consistency Is Not Identification: What Reuse Reveals About Latent Actions.
Under review at the International Conference on Learning Representations (**ICLR**), 2027.

5. **Kohsuke Ide**, Hiroki Nishizawa, Ryousuke Yamada, Yue Qiu, Yoshihiro Fukuhara, Hirokatsu Kataoka, and Yutaka Satoh.
Success Rates Are Not Model Properties: Controlled Diagnostics for VLA Evaluation.
Under review at the International Conference on Learning Representations (**ICLR**), 2027.

6. Hirokatsu Kataoka[*], **Kohsuke Ide**[*], Yoshihiro Fukuhara, Shumpei Takezaki, Nakamasa Inoue, Yuki M. Asano, and Christian Rupprecht.
Revisiting Vision Model Baselines in the Deep Learning Era.
Under review at the IEEE/CVF Conference on Computer Vision and Pattern Recognition (**CVPR**), 2027.
[*] Equal contribution.

7. **Kohsuke Ide**, Ryousuke Yamada, Yue Qiu, Yoshihiro Fukuhara, Hirokatsu Kataoka, and Yutaka Satoh.
Structure First, Appearance Later: Label-Efficient Pretraining for Neural Radiance Fields.
Under review at the International Conference on 3D Vision (**3DV**) 2027.

8. Ryousuke Yamada, **Kohsuke Ide**, Yoshihiro Fukuhara, Hirokatsu Kataoka, Gilles Puy, Andrei Bursuc, and Yuki M. Asano.
3D sans 3D Scans: Scalable Pre-training from Video-Generated Point Clouds.
IEEE/CVF Conference on Computer Vision and Pattern Recognition (**CVPR**), 2026.
project | paper | code

9. Hirokatsu Kataoka, Yoshihiro Fukuhara, Yonglong Tian, Shangzhe Wu, Oishi Deb, Ryousuke Yamada, Christian Rupprecht, Jianyuan Wang, **Kohsuke Ide**, Koichi Namekata, Xianzheng Ma, Yiming Chen, Robert Geirhos, Aditi Raghunathan, Yuki M. Asano, Deva Ramanan, David Fouhey, Andrew J. Davison, Yilun Du, Jiajun Wu, and Zhuang Liu.
Visual General Intelligence: A White Paper.
Preprint, 2026.
paper

10. **Kohsuke Ide**, Ryousuke Yamada, Yoshihiro Fukuhara, Hirokatsu Kataoka, and Yutaka Satoh.
Colors You Can't See, Semantic Biases You Can't Ignore.
ICCV Workshop on Multimodal Reasoning and General Intelligence (**ICCV Workshop**), 2025.

RESEARCH EXPERIENCE

9/2025 – Present ***Research Assistant*, AIST** **Tsukuba, Japan**

- Conduct research on visual world models, 3D understanding, video representation learning, and vision-language-action models at the National Institute of Advanced Industrial Science and Technology (AIST).
- Lead projects from problem formulation through implementation, experiments, and writing.
- Collaborate with Prof. Yuki M. Asano on video representation learning, and with researchers at Oxford's Visual Geometry Group on 3D and video understanding.

1/2024 – 8/2025 ***Research Intern*, AIST** **Tsukuba, Japan**

- Developed diagnostic evaluations for shortcut learning, language leakage, and visual biases in 3D and vision-language models.
- Built multi-object 3D reasoning benchmarks that require differences between scenes rather than language-only cues.
- Designed and implemented a video-to-point-cloud data-generation pipeline for scalable 3D pre-training.

8/2024 – 3/2025 ***Research Intern*, Preferred Networks** **Tokyo, Japan**

- Developed and improved 3D reconstruction and free-viewpoint video pipelines.
- Optimized rendering and model components for efficient experimentation.

9/2021 – 3/2024 ***Machine Learning Engineer Intern*, Lightblue Technology** **Tokyo, Japan**

- Developed and deployed an object-tracking system for a work-efficiency monitoring application using Docker and AWS EC2.
- Improved human-action-recognition accuracy by 20% through feature engineering and Optuna-based hyperparameter search.

9/2023 – 10/2023 ***MLOps Engineer Intern*, M3** **Tokyo, Japan**

- Built **RecoverOOM**, an open-source service that detects out-of-memory failures in GKE CronJobs, updates memory limits, and restarts jobs automatically.

RESEARCH VISITS & INTERNATIONAL COLLABORATION

19–31 Jan 2026 **Research Visit** **University of Oxford, UK**
Research meetings with members of the Visual Geometry Group and Active Vision Laboratory.

22–30 Apr 2026 **ASPIRE Computer Vision Workshop and Research Visit** **University of Oxford, UK**
Presented research and discussed follow-up work with researchers at Oxford VGG.

INVITED TALKS

- **Seeing What Matters, Learning How to Find Out: Toward Visual General Intelligence.**
  CMU Video Model Journal Club (online), 18 Sep 2026 (PT). recording

ACADEMIC SERVICE

- **Reviewer**, International Conference on Learning Representations (ICLR), 2027.
- **Workshop Organizer**, **Visual General Intelligence: Vision Research Toward the AGI Era**, CVPR 2026.
- **Organizer**, **LENS (Young Researchers in Vision)**
  A Japanese academic community of over 400 members ranging from high school students to professors.

HONORS & AWARDS

- **MIRU 2025 Interactive Presentation Award** (Jul 2025)
  Selected as one of **11** award recipients from **601** interactive presentations (**top 1.8%**) for "Can 3D Large Language Models Count to Three?"
- **WINC Hackathon Winner** (2023)
  Built a ResNet-based push-up counter optimized with TensorRT for Jetson Nano.

TECHNICAL SKILLS & LANGUAGES

- **Programming and systems:** Python, C++, Go, PyTorch, CUDA, TensorRT, OpenCV, Git, Docker, Kubernetes, Linux, AWS, and GCP.
- **Languages:** Japanese (native); English (fluent; TOEFL iBT 118/120, TOEIC 990/990).
